

## Sustainability Initiative

Supporting Sustainability across the U.S. through  
Community Beautification

April 2019 -June 2019

### Reduce Waste

In Santa Maria, CA, we completed a 'Spruce Up the Fairway' project, collecting and removing over 70 pounds of trash along Fairway Drive.

### Travel Green

At Western Kentucky University, we increased the bio-diesel used in our fleet by 10% within the last year. Our corporate team also gave back to our community by completing 'Bike MS: Ride the Vineyard 2019' which raises awareness for people with Multiple Sclerosis.

### Park Clean-Up

Park Clean-Ups benefit our environment and the communities we serve. In Austin, TX, we participated in the Walnut Creek Clean-Up, in Fort Worth, TX, we volunteered at Eugene McCray Park and in Volusia County, FL, we teamed up to clean up the Waggin' Trail Dog Park.

### Recycle

In Edmond, OK, we implemented a Recycling Program to help the community and the environment by saving money, energy and natural resources.
